

## Product Features :

- 12VDC constant voltage output ,Full load current MAX 8.5A
- 40VAC-240VAC triac dimming , smooth dimming curve, and it is proportional to the voltage curve output by regulator
- Has the function of short circuit protection, over power protection and over heat protection.
- Choose right triac dimmer when cascading on this driver

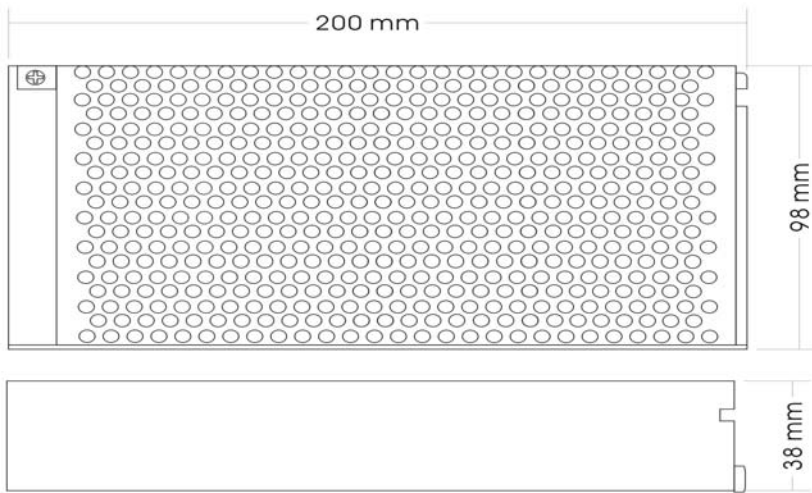

## Parameters :

Input	Output
Input voltage : AC40-240V	Output power : 100W
Frequency : 50/60HZ	Output current : 8.5A max
Input current : 2A max	Output voltage : DC12V
Power : 75% min	

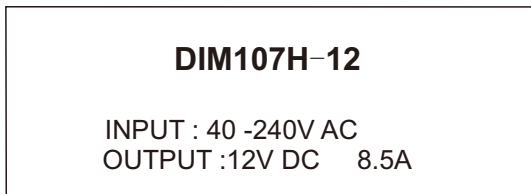

## Specification :

Appearance size : L200*W98*H39(mm)	N.W : 612g
Packing size : L210*W108*H46(mm)	G.W : 673g
